HISTORIQUE DE LA SISMICITÉ

- La planète Terre a été seconée depuis sa création par 4,6 milliards d'années d'agitation souterraine.
- Chaque année on enregistre plus de trois mille seismes de magnitude supérieure
- Parmi ces seismes cent(10 diffient le paysage, leurs magnitudes dépasse é sur l'échelle de RICHTER.
- Vingt seismes dont la magnitude est supérieure
 à 7 sur l'échelle de RICHTER causent d'importants dégats.

LA SISMICITÉ EN ALGÉRIE

La sismicité en Algérie est concentrée dans l'Algérie du Nord. Elle est connue depuis le 03 janvier 1365.

LES SEISMES MAJEURS EN ALGÉRIE DE 1365 À 2003

Lieu	Date	Intensité max.	Magnitude	Victimes
Alger Alger	03 janvier 1365 10 mars 1673	x		plusieurs
Alger	03 février 1716	x		20 000
Omn	09 octobre 1790	×		2000
Blida	02 mars 1825	x		7000
Djidjelli	22 août 1856	X		
Mitidja	02 janvier 1867	X-XI	7.5	100
Aurès	16 novembre 1869	DX	6.5	30
El-Kalaa	29 novembre 1887	IX-X	6.5	20

ALGIERS FLOOD AND DEBRIS FLOW OF NOVEMBER 10th, 2001

 HUMAN LIVES, INJURING MORE THAN
 312, MADE MISSING 116 AND ABOUT 10
 000 WERE HOMELESS, DAMAGING
 MORE THAN 1500 HOUSING UNITS

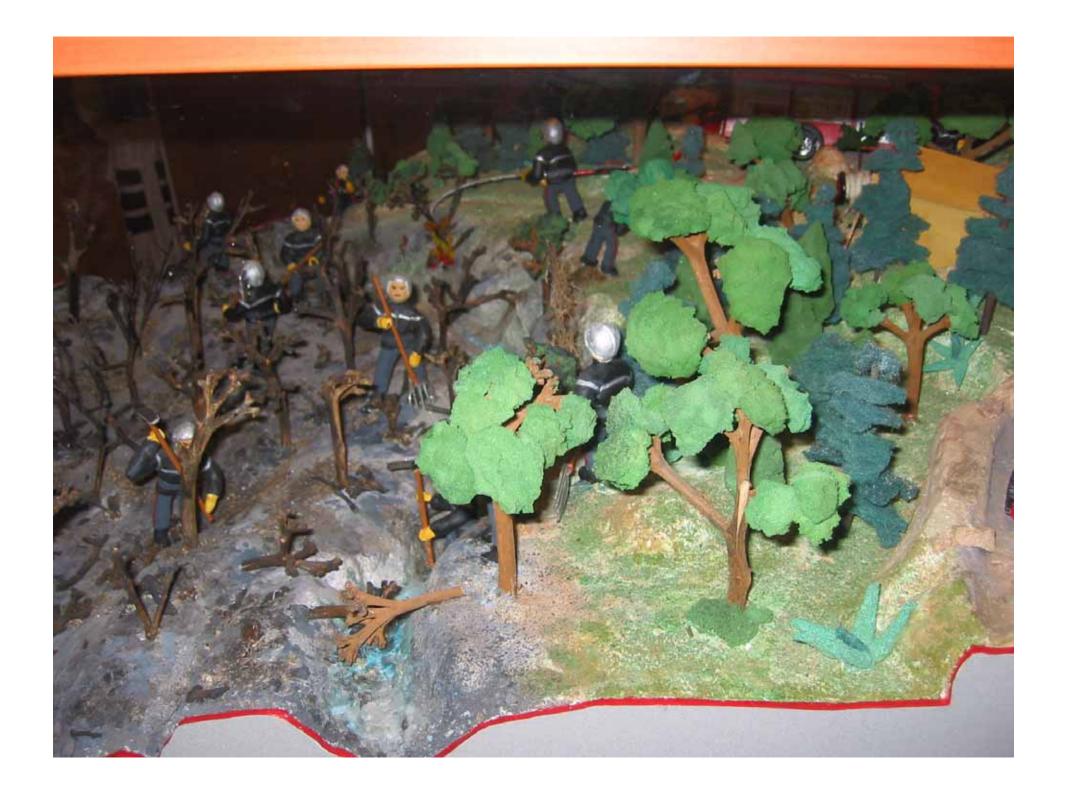

TELLING LIVE LESSONS FOR BUSH FIRES

THE MUSEUM IS KEEPING STORIES FROM PAST EARTQUAKES, FLOODS AND ALSO MAJOR FIRES.

CONCLUSION

THE IDEA OF TELL.NET HAS BEEN WELL ACCEPTED AND BEING DEVELOPED IN ALGERIA.

WE ARE MAKING SOME PROGRESS THAT THE CIVIL PROTECTION
MUSUEM IN ALGIERS BE MULTIPLIED ALL OVER THE PROVINCES
OF ALGERIA

THE NEXT PHASE IS TO CONVINCE THE MINISTRY OF CULTURE TO INTRODUCE IN EACH OF THE EXISTING MUSUEUMS A CORNER FOR LIVE LESSONS FROM PAST DISASTERS.
